ABU DHABI PORTS COMPANY CONTRACTS SEACOR ENVIRONMENTAL SERVICES MIDDLE EAST FOR DELIVERY OF EMERGENCY RESPONSE AND CRISIS MANAGEMENT PLANS

Abu Dhabi, UAE
11 October 2009

FOR IMMEDIATE RELEASE – Abu Dhabi based SEACOR Environmental Services Middle East (SESME) the regional operating arm of SEACOR Environmental Services (SES), a global leader in risk management, environmental and emergency response solutions, has begun working with Abu Dhabi Ports Company (ADPC) on the development of all-hazards emergency response plans for all their owned or managed facilities in the Emirate of Abu Dhabi.

Abu Dhabi Ports Company (ADPC) has engaged SESME to write facility response plans (FRP) for their major facilities along with a corporate crisis management plan (CMP). These ports are Mina Zayed, Mussafah, Shahama and Khalifa and they are all located in the Emirate of Abu Dhabi. The FRPs are intended to cover all emergencies including fire, medical, hazardous materials incidents, oil spills, security events and transport accidents. Each FRP will include an introduction to the facility and its operations, a risk assessment for the port for the most likely incidents and action instructions for those involved in the notification and management of an emergency. The FRPs will be accompanied by a field operations guide which contains tactical guidelines for the emergency responders. SESME will also be helping ADPC construct Codes of Practice for related fields such as health & safety, risk assessments and response planning.

The Abu Dhabi Ports Company (ADPC) is a master developer and regulator of ports and industrial zones. Its purpose is to create a sustainable growth platform that spurs economic expansion and diversification for Abu Dhabi by developing world-class infrastructure, real-estate and business services in conjunction with the private sector. ADPC has been mandated to develop all ports (with the exception of oil & gas and military ports) and related infrastructure in the emirate of Abu Dhabi.

SES, a subsidiary of SEACOR Holdings Inc. (NYSE: CKH), is a global provider of risk management and environmental, industrial and emergency response solutions to a diverse range of industrial sectors. An ISO 9001, 14001, and 18001 certified organisation, SES provides customers with a range of services including oil and hazardous material response, fire-fighting & rescue, waste management, industrial services, site remediation and emergency response & business continuity consultancy and training. Principle operating centres are in the UK, the US, the Middle East, the Caspian & Black Sea Regions, and Southeast Asia. For more information visit www.sesme.ae
